Island Insert Cabinets

*Return to Table of Contents

Designers and builders of masonry island kitchens are now offered a complete line of door, drawer/door, drawer combinations and pullout cabinetry to construct a totally functional kitchen. The line features the optional Clean-Stor® box that attaches to door fronts to create useful storage and organization. The Clean-Stor box eliminates the infamous "masonry black hole" that lurks behind access doors. The steel construction is superior to presently used insert materials that are subject to warping, rotting and mildew. The Clean-Stor box comes with a shelf and provides clean dry storage.
Doors exhibit the same stainless quality, "heft & weight" and solid close as the modular cabinetry line allowing additional design flexibility by using both lines to create the ideal kitchen while retaining a consistent "look". Door and drawer faces can be upgraded to any door style and be powder coated to compliment your outdoor kitchen.

The insert line includes:

- One and Two Drawer Units
- Door and Drawer Combination Units
- One and Two Door (and frame) Units
- Paper Towel Dispenser
- Trash and Propane Pullouts

Access Door Inserts may be purchased with just the frame and doors or combined with the "Clean-Stor" box as a complete unit.
