We developed our hallmark Wall Series line with designers in mind. It started the label-forward wine storage movement in 2001 bringing modern sophistication to the industry.

Our patented wine rack puts the label on display, creating artful collections perfect for any room — residential or commercial — and any sized collection.

Floor to Ceiling Frames create floating wine walls in homes and restaurants, allowing designers to create unique, stylish room dividers.

Simply, FCFs are the utility tool that takes the Wall Series off the wall, allowing for installation even when wall-mounting space is at a premium.
**How it works**

The 10-foot frame (two, 5-foot sections) can be cut on site to fit your ceiling height.

Add Wall Series racking to one or both sides.

Add a backer bar to one-sided displays.

*Available in 12-foot sections (in stock) & 15-foot solid sections (lead times apply)*

**Hardware**

Self-drilling metal screws included to mount Wall Series products (racking sold separately).

*Mounting hardware for floor or ceiling not included.*

**Installation Centerline**

The Vino Series peg system brings a new edge to minimalism in the wine cellar. Starting at just one bottle, the label-forward Pins and cork-forward Rails allow designers to break from linear wine racking and create eye-catching focal points in any room.

Plus, this is the only peg system that can mount directly into any surface, including drywall.
